Annual Performance Report 2025/26

Deanship of Quality and Academic Accreditation

Prepared for the University Council | 20 August 2026

01

Strategic Context

Where the university stands against the 2030 plan

Purpose of this review

- Assess delivery against the approved strategic plan
- Confirm the accreditation evidence base is complete
 - Evidence gathered from eight colleges
 - Data current to the end of the second semester
- Set the priorities for the coming academic year

Strengths and areas to address

- Strengths
 - Graduate employability above the national median
 - Research output up year on year
- To address
 - Uneven survey response rates across colleges
 - Placement capacity in health programmes

Three lines of effort

- Teaching
 - Curriculum review cycle
- Research
 - Grant capture and support
- Community
 - Partnership agreements

Campus development

- The new academic block adds twelve teaching spaces
 - Handover scheduled for the second semester
 - Funded from the approved capital programme

A campus built around the student

Photograph: University of Ha'il campus

Research and innovation

- Four new research groups established this year
 - Two joint projects with regional industry
 - Laboratory refurbishment completed

Executive summary

Delivery is on plan; the risk sits in evidence collection, not in performance.

Situation

- Year three of the strategic plan
- Accreditation review due next year

Findings

- Eleven of fourteen targets met
- Survey coverage below threshold

Recommendation

- Fund a central evidence unit
- Report quarterly to Council

What we are asking Council to note

01

Performance is on track

Eleven of fourteen indicators met or exceeded

02

Evidence collection is the single risk

Response rates must reach 60% before review

03

One decision is needed today

Approval of the central evidence unit

Key indicators at a glance

94.2%

STUDENT SATISFACTION

1,480

GRADUATES THIS YEAR

312

INDEXED PUBLICATIONS

78%

EMPLOYED WITHIN A YEAR

- Detail by college is available in Annex B

Publications by college

- Chart placeholder — insert a native PowerPoint chart here; it picks up the theme palette automatically.

What the data shows

- Engineering and Science account for 61%
- Growth is concentrated in joint authorship

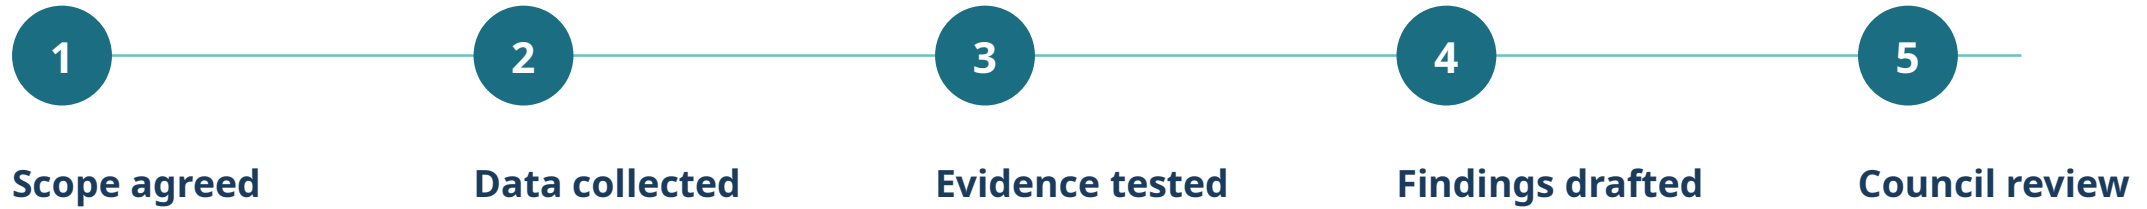

Performance against target

Indicator	Baseline	Target	Actual	Status
Student satisfaction	91.0%	93.0%	94.2%	Met
Graduate employment	72%	78%	78%	Met
Indexed publications	265	320	312	At risk
Survey response rate	48%	60%	51%	Behind

How the review was run

Delivery roadmap

Q1	Q2	Q3	Q4
• Evidence unit staffed • Baseline audit	• Survey redesign • College liaison	• Mid-year report • Gap closure	• Accreditation dossier • Council sign-off

Governance of the review

- University Council
 - Quality Committee
 - Deanship of Quality — secretariat
 - College quality units

Structure approved by Council, 12 March 2026

Evidence management architecture

- Sources → collection → validation → dossier
 - Insert the diagram or SmartArt in this area

Legend

- Owned by the Deanship
- Owned by colleges
- Shared systems

Two options for the evidence unit

Central unit

- One team, consistent method
 - Faster to accredit
 - Needs three new posts

Distributed model

- Capacity in each college
 - No new central cost
 - Method varies by college

“

Evidence is not paperwork. It is how the university proves the quality it already delivers.
