Executive Summary

[Open with the single most important message of the document — one sentence a busy reader could act on without reading further.]

[Two to four short paragraphs. State what was asked, what was found and what is recommended. Keep the whole summary to one page so it can stand alone as a briefing note.]

- [Key finding or recommendation one]
- [Key finding or recommendation two]
- [Key finding or recommendation three]

01

[Section Title]

[A short standfirst introducing what this section covers and why it matters to the reader.]

1. [Heading 1 — numbered automatically]

[Body text. This paragraph uses the Normal style: 11 pt, 1.15 line spacing, left aligned, with the complex-script size raised so Arabic runs sit optically level with the Latin text.]

How to use this template

Delete this page before issuing the document.

Every element above is driven by a named style. Select any paragraph and the Styles gallery (Home tab) shows which one is applied; changing the style changes every matching paragraph in the document at once.

- Replace the bracketed placeholders on the cover, then update the header and footer text once — they repeat on every page.
- Build the contents list by right-clicking the field on the Contents page and choosing Update Field › Update entire table.
- Start a new part of the document with the UoH Section Number and UoH Section Title styles; the number style forces a page break before it.
- For Arabic documents apply the UoH Arabic styles, which set right-to-left direction, the Arabic type size and the looser line spacing Arabic needs.
- Tables: apply UoH Table for reporting grids, UoH Table Light for sign-off blocks and UoH Key Facts Table for label/value pairs.
